Wellness Advocate

# INTRODUCTION

---

There are many misconceptions about being a doTERRA member, it is not just about making money or about essential oils, it is a beautiful symbiosis of the life you should be living

If you have arrived on the page it is likely that you are looking for something business or wellness related. Maybe you are looking for something more from life or you need some extra money. It is not really important what your motivations are, but that you have an aspiration to be healthier and a little richer.

There are those moments in our lives when we are at a fork in the road. We are unsure what direction we want to take, but something is telling us that we want more. And something that is better than now.

## LIVING BETTER FOR LONGER

---

Having life goals regardless of how old we are is so important for a happy and contented life. The ideas of life-time learning have become even more important as we live ever longer than we have ever done. However, living longer is not really the point. The goal should be to live healthier for longer. While at the same time having the finances to enjoy that lifestyle.

Younger people see these goals in a similar way with the desire to live a lifestyle rather than a job. Working and travelling the world using their laptop to create an income while using the time to live the dream.

This is where doTERRA stands above the other direct sales companies by offering a quality product that people want to buy. At the same time a business opportunity that is the envy of all the other MLM companies in the industry.

More than once I have spoken to network marketers clicking away on their laptop in a beach side cafe. They have and still are making that dream an reality as they drink their coffee while chatting to their global team.

Of course, this is their dream and not yours. However, living the dream with doTERRA can mean whatever you want it to mean. So, just imagine for a moment what is your dream and how can doTERRA make it possible.

## Enroll and become a doTERRA member

Will doTERRA tick all the boxes for you as it has for me?

Well, it is hard to say, but with a membership fee of only \$35 (£20 / 20€) it is a small investment for such an outstanding opportunity. In addition, if you purchase a product based wholesale membership the membership fee is waived. This means if you purchase a product kit you could save as much as 25-55% on your enrollment order.

For the loyal member the benefits are even better. These include, the free product of the month with LRP orders over 125pv, product points towards free products and regular Bogo sales (Buy one, get one free).
